

SURFACEAMERICA®

Delivering Exceptional Value

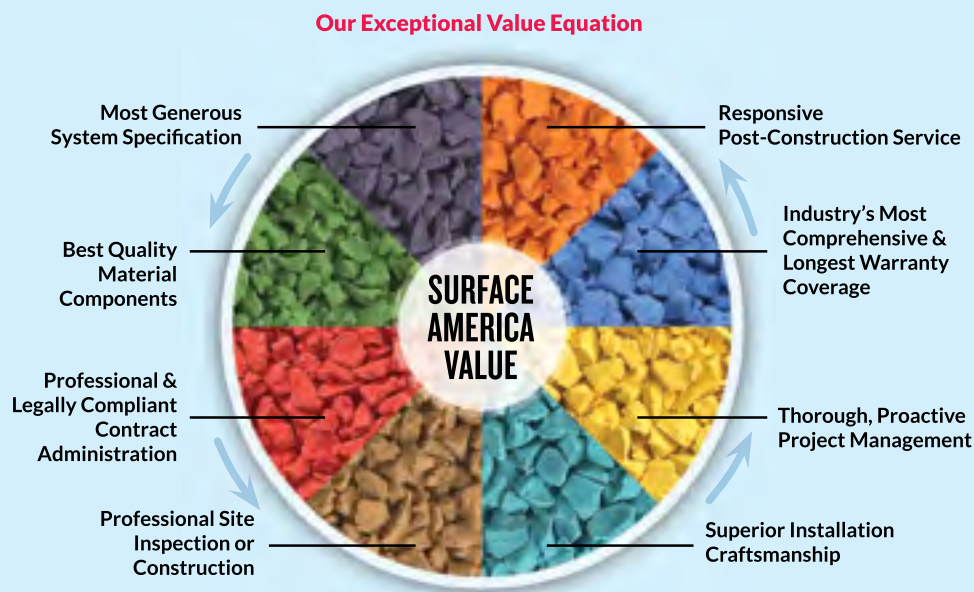

PLAYGROUND & WATERPLAY SURFACING

WHY SURFACE AMERICA?

Long-standing expertise, highly respected business practices, proven systems, superior craftsmanship and maximum performance.

Surface America has the complete skill set, from concept to completion. Partner with us and together we'll deliver excellence - every time.

Surface America is a subsidiary of Pennsylvania-based Ecore International. As an Ecore company, our capabilities are broad, our bonding capacity is great, our financial strength is sure, our products are best-in-class, our warranties are superior and our approach to business is responsible. Ecore is also a primary manufacturer of many of Surface America's product components, such as the ColorMill® EPDM granules. The combination of Ecore's manufacturing expertise and Surface America's contract management and installation strength is powerful, bringing needed turnkey options to the client.

Ecore is the only vertically integrated manufacturer in the playground surfacing industry. Its ColorMill® EPDM rubber yields the industry's most vibrant colors, a terrific complement to Ecore's highly engineered manufacturing process. The highest standards in colorfastness and consistency, as well as general product quality and innovation, have driven Ecore to an unquestioned leadership position. Its proprietary tile lamination process and EPDM manufacturing capabilities have created a terrific complement to Surface America's specifications and service level.

Our expertise, experience and product offerings make us uniquely qualified to build your vision into a reality.

The Widest Collection of Recycled Materials

Every Surface America product and system is designed and manufactured with long-term performance in mind. We select the best material components available and design each surfacing & flooring system with the characteristics necessary for the application.

A COMMITMENT TO AMERICAN MADE

All Surface America products and systems are manufactured in the U.S.A. and feature materials sourced from the United States.

Coast-to-Coast Installation And Construction

Since 1993, Surface America has completed thousands of projects and installed millions of square feet of recreational and athletic surfacing & flooring. Our projects are built to specification and guaranteed to meet expectations. As such, we commonly fill the role of contract holder, project manager and certified installer.

From Concept To Completion

Surface America has the expertise and experience to play a significant role on your overall project. Our staff can assist in design and planning, and manage the construction process as it relates to the installation of surfacing & flooring for recreational and athletic applications.

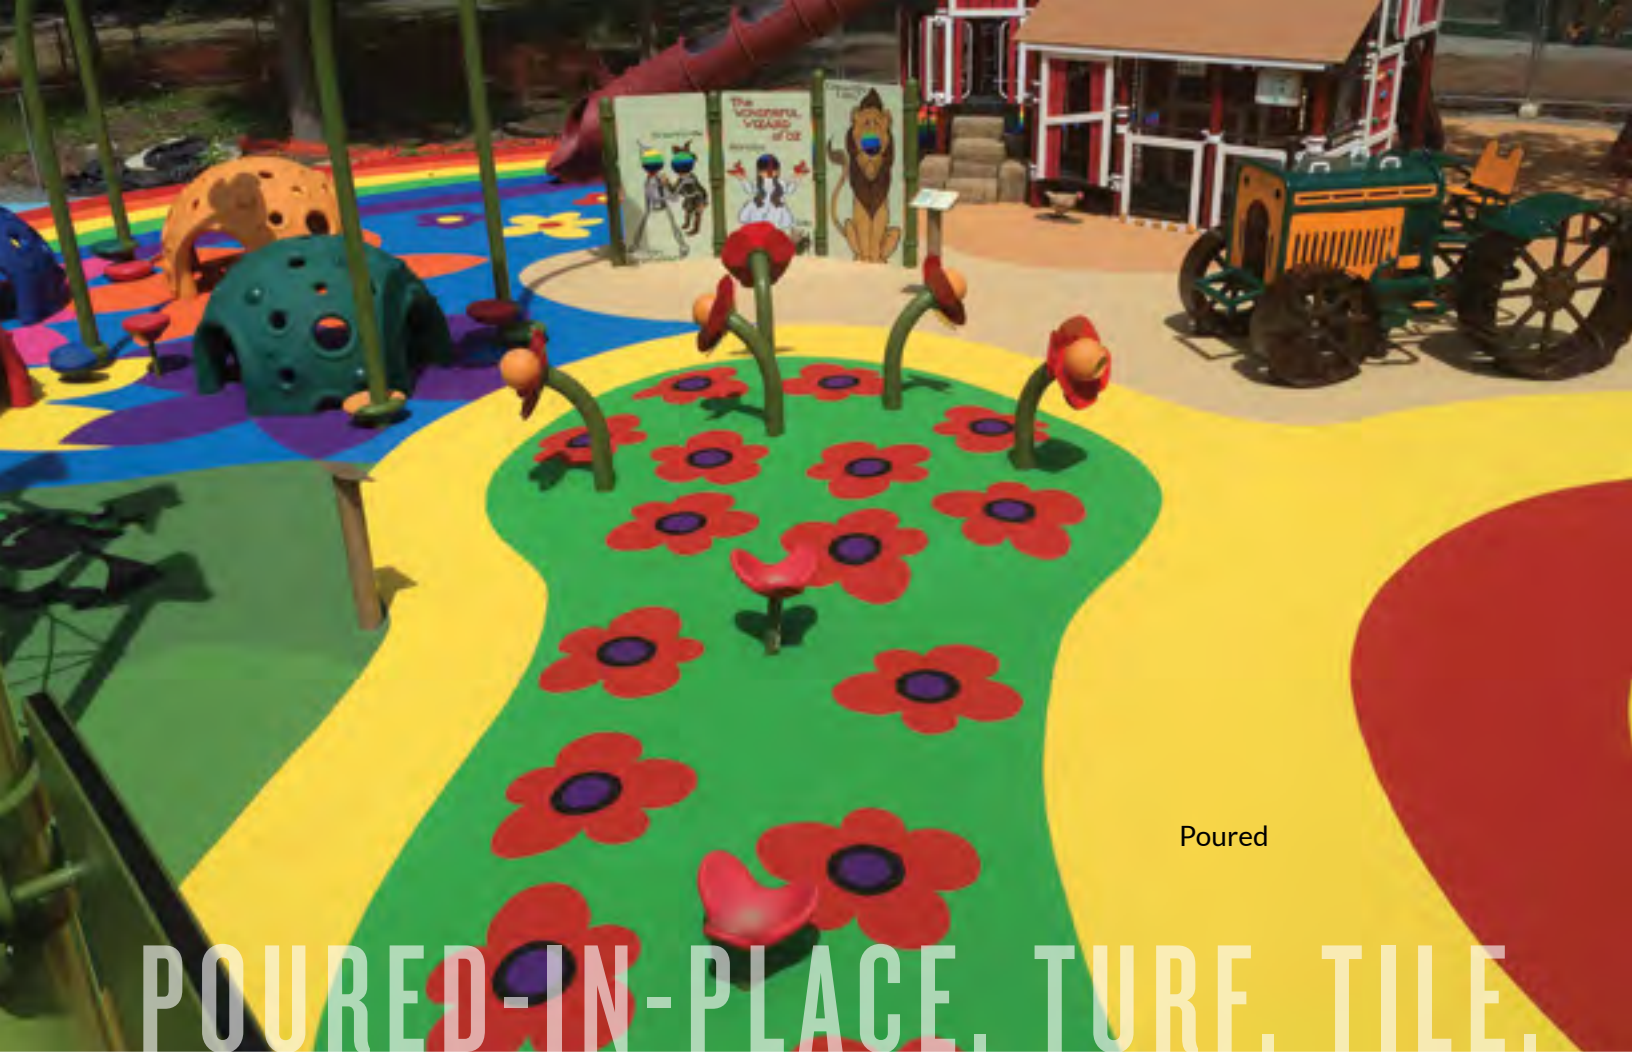

PLAYGROUND SURFACING

The choice is yours when it comes to IPEMA-certified and ADA-compliant systems.

Surface America playground surfacing systems meet critical fall heights up to 13 feet per ASTM F-1292, which is the industry's standard test to evaluate a surfacing system's ability to absorb shock. They also conform to the requirements of the Americans with Disabilities Act and ASTM F-1951 Determination of Playground Surface Accessibility.

PLAYGROUND SURFACING

The most complete line of bound playground surfacing in the world: poured-in-place, turf and tile.

Turf

PlayBound™ Poured-in-Place comes with a 7-year or 10-year warranty. The 2-layer rubber system has virtually unlimited design possibilities.

EverTop™ is the top layer of that surface, and is commonly used in play areas outside of equipment use zones to achieve aesthetic consistency at a lower cost.

PlayBound™ TurfTop™ has a natural grass look with no maintenance and world-class toughness.

UltraTile™ Play is an ultra-durable top wear layer bonded to a resilient underlayment. Its expected life is more than 100% longer than other rubber playground tiles.

WATERPLAY SURFACING

A breakthrough, high-performance solution for outdoor & indoor water parks, splash pads and pool surrounds.

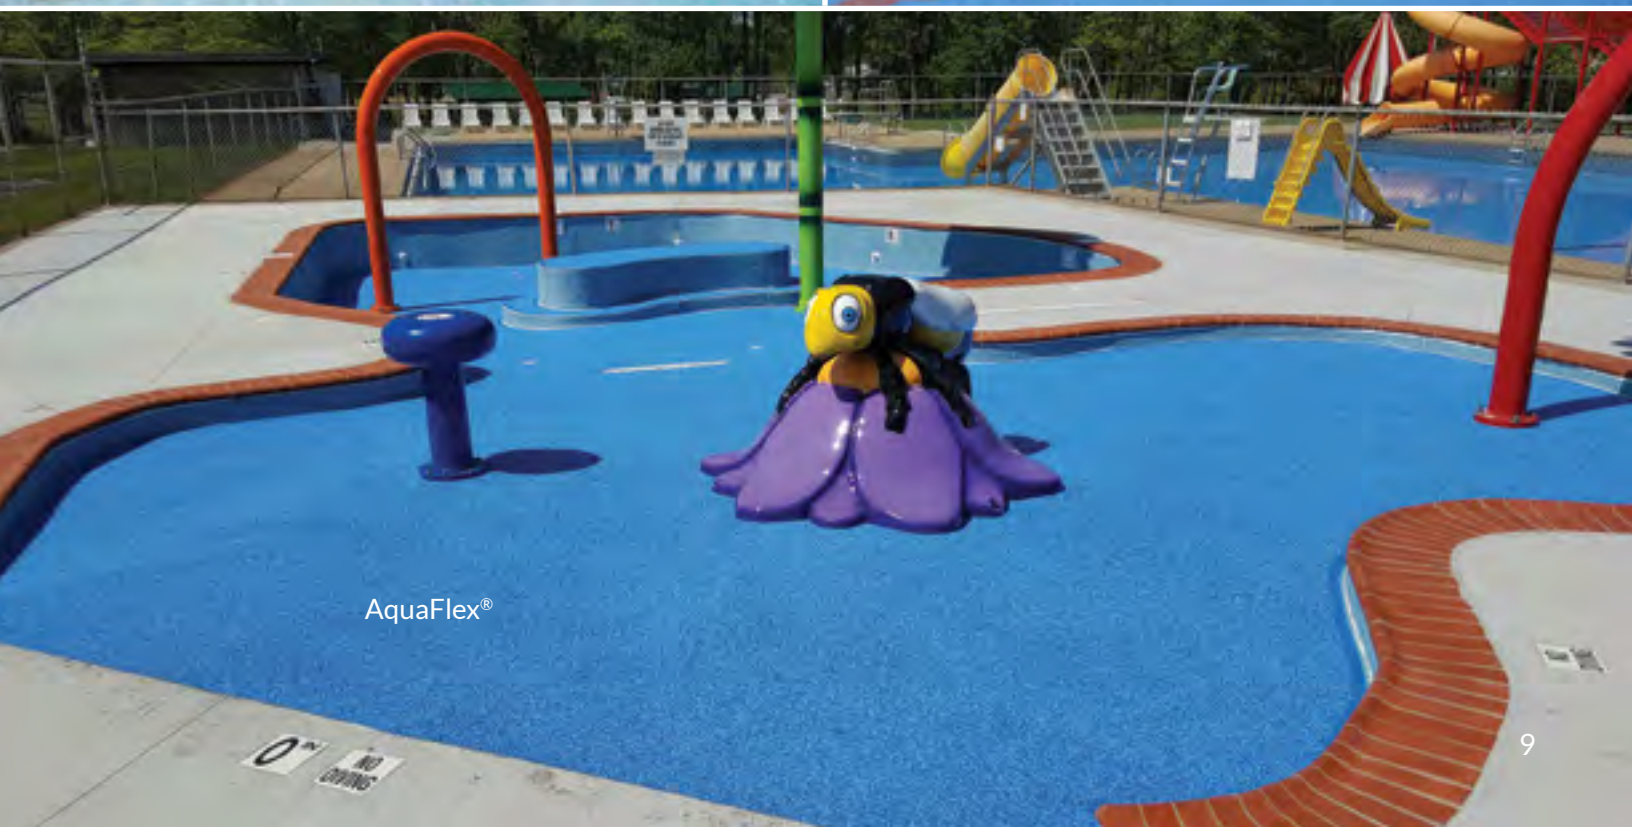

AquaFlex® is the premier waterplay surfacing choice, and is available in porous and non-porous versions. Millions of aliphatic thermoplastic pebbles are bonded together to create a comfortable, durable, non-skid surface. Its unique chlorine resistant and UV stabilization properties keep your waterplay surface looking beautiful for the long haul – guaranteed! Permanent designs, themes, patterns, borders and logos enhance the waterplay environment.

AquaFlex® is a Landscape Structures product provided by Surface America.

INDOOR FLOORING

Impact-absorbent and slip-resistant flooring designed for heavy-duty use in gymnasiums and fitness areas.

Our line includes a seamless poured urethane over rubber basemat floor for gymnasiums and field houses, and rubber or synthetic turf fitness flooring that provide excellent acoustics and ideal ergonomics. Surface America also offers some of the industry's best-performing and most durable rubber flooring for high-traffic and specialty applications. Made from 100% post-consumer recycled rubber.

OUTDOOR SURFACING

Resilient, high-performance surfacing for every imaginable setting and use, including recreation, sports and high traffic.

Surface America surfaces can be found in many specialty outdoor applications. Poured-on-site systems are ideal for areas that get wet because they have exceptional footing and slip-resistant characteristics. Surface America products can add an attractive design to a walkway or other high-traffic area that will last a lifetime. Our high-performance turf features a low fiber height and tight gauge.

MIRACLE LEAGUE BASEBALL FIELDS

Surface America: exclusive surfacing partner of The Miracle League.

Our Poured and Turf systems are used for both infield and outfield areas because they provide a smooth, seamless sports surface. Players and mobility equipment maneuver freely on both poured-in-place rubber and synthetic turf surfacing options.

THE WORLD OF SURFACING FOR RECREATION AND ATHLETICS IS FULL OF POSSIBILITIES.

Each Surface America surfacing & flooring choice has the potential to significantly enhance the facility and the enjoyment by those who use it. Since 1993, our mission has been to combine the best material components with old-fashioned client service. That mission, after more than 35 million square feet of surfacing & flooring installations, remains steadfast. It's how we've earned the reputation as delivering the industry's best value. **May we go to work on your next project?**
